London, the author, who left here last May on a trip around the world to procure material for literary work and for whose safety fears have been entertained, returned to this city today on the steamship Mariposa from Tahiti. London is accompanied by his wife and says that he has come back to attend to some business matters. He will leave again on the Mariposa on February 1. The Snark, the fifty-foet boat in which London is making his trip, was left at Papeete for repairs to her gas engine.

"We have had absolutely no adventares," said London, "and the reasons for our delayed arrival at the Marquessas Islands which gave rise to the reports that we had been lost, were simply trouble with our gas engine and

quessas Islands which gave rise to the reports that we had been lost, were simply trouble with our gas engine and because we spent some time cruising among various islands. When we resume our voyage in the Snark, we shall have an entirely new crew. Those who came with us when we left San Francisco last spring idealized adventure and when they found that actual adventure had a lot of hard work in between times, they lost interest."

In relating his adventures in the Snark, thus far, Jack London laid particular stress upon his reception at Papeete, where he was met by 'Darling, the nature man,' who came out in a small boat waving a red flag as a salute to his brother Socialist. During his stay at this port before the departure of the Mariposa, London was visited daily by the nature man on the Snark and both held Socialistic scances. According to the author. Darling is not Seen on board the Mariposa this morning shortly after the vessel's release from quarantine. London looked the picture of health and was all smiles when asked about his cruisal smiles.

Snark and both held Socialistic seances. According to the author, Darling is not as poor in pocket as was at first reported, but on the other hand seems to be doing fairly well in his south sea island home.

When reminded of the fact that he had been given up for lost by many of his friends in this city, London laughed

long and loud.

"I was thinking of tying the Snark up at some small island and returning here with my wife and a story of hard. ship, but later changed my mind during the voyage on the Mariposa." London announced. Asked as to his future plans, the writer stated that the cruise of the Snark would be carried out as After putting to sea we found that the northeast trades had shifted around to the southeast and it was slow work. The Snark behaved beautifully, however, and no damage whatever was

Snow" and Ignores the Bright Sunshine.

Not convinced that the sun is determined to shine for some days to come the weather oracle again asserts "rain or snow" will be the dose for Sunday. It is well nigh impossible to get Dr. Hyatt's perspective. Just where he sees this rain or snow is difficult to fathem. It wasn't in the air Saturday for the skies were clear and there was ne'er a wee cloud anywhere. Moreover, it didn't rain. But perhaps this will explain the doctor's line of thought:

"Low barometric pressure continued over the middle and south Pacific coast, causing rain or snow over portions of California, Oregon, Nevada, Utah and Idaho. It was raining at Los Angeles and snowing at Tonopah, Independence, Buffsio and Pittsburg.

"The low pressure over the Pacific coast will cause rain or snow in this vicinity tonight and Sunday.

It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Sea, root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such minent medical writers and teachers as Prof. Bartholow, of Jiefferson Med. Stomach Healthy Is to Exercise It.

But He Did Not Tell How to Make It

Healthy.

But He Did Not Tell How to Make It Healthy.

The muscles of the body can be developed by exercise until their strength has increased manifold, and a preper amount of training each day will accomplish this result, but it is somewhat doubtful whether you can increase the digestive powers of the stomach by eating indigestible food in order to force it to work.

Nature has furnished us all with a perfect set of organs, and if they are not abused they will attend to the business required of them. They need no abusemal strength.

There is a limit to the weight a man can lift, and there is also a limit to what the stomach can do.

The cause of dyspepsia, indigestion and many affiliated diseases is that the stomach has been exercised for much and it is tired or worm out. Not exercise but rest is what it needs.

To take comething into the stomach that will relieve it from its work for a short time—something to digest the food—will give it a rest and allow it time to regain its strength.

The proper sid to the digestive organs is Stuart's Dyspepsia Tablets which core dyspepsia, indigestion gas on the stomach and bowels, heartburn, substation of the heart, and all stomach diseases.

Rest and invigoration is what the stomach gets when you use Stuart's Dyspepsia Tablets for one grain of the active principle in them is sufficient to digest 2000 grains of food.

The Tablets increase the flow of gastric pice, and prevent fermentation, and-ity and sour emerions.

Do not attempt to starve out dyspepsia. You need all your strength.

The common stone method is to digest the food for the stomach and give if a rest.

In a letter of introduction given to Chaplain Millard before he started on ernor Scofield says: "I am pleased to certify that Rev. "In testimony whereof, I have here unto set my hand and caused the Exccutive Privy Seal to be affixed. Done at the Capitol, in the City of Madison, this First day of August, A. D. 1898.

Chaplain Millard is a firm believer in Duffy's Pure Malt Whiskey as the best tonic stimulant, and uses it regularly as prescribed. In a recent letter to the company he wrote: "I have used your Mait Whiskey and find it to be the best tonic for old age and declining years. I am 88 years of age, and my extreme old age naturally has caused me to suffer great weakness and debility. When I found myself growing weak I insisted upon two or three spoonfuls of Duffy's Pure Malt Whiskey each day,

My family physician said: 'In your old age you need a stimulant,' and I-replied, 'Duffy's Pare Mait Whiskey is sufficient,' and I must say it has proved a great tonic and stimulant. It has strengthened my system and makes me feel younger. I will always recommend it to anyone who is run down and weak, either from disease or old age.

It is invaluable for overworked men, delicate women and sickly children. It strengthens and susmins the system; is a promoter of health and longevity; makes the old young and keeps the young strong,

CAUTION.-When you ask your druggist, grocer or dealer for Duffy's Pure Mait Whiskey be sure you get the genuine. It is the only absolutely pure medicinal malt whiskey, and is sold in sealed bottles only; never in bulk. Price \$1.00.
